

Lake Forest Garden Club

22921 Ridge Route Dr.

Lake Forest, CA 92630

I represent Lake Forest Garden Club, a non-profit organization that offers scholarships as well as programs for elementary and preschool children. Our purpose is to create, stimulate and inspire interest in amateur gardening and provide educational information to the general public.

The Saturday before Mother's Day in May, the Lake Forest Garden Club has a plant sale and garden boutique to fund our scholarship and community programs. Our members propagate cuttings from their gardens, plant baskets and arrange cut flowers for the sale. The event is attended by over 500 adults and children from the local community.

Would you please donate items for our raffle?

Your company name will be displayed to over 120 club members and also to the hundreds of community members who enjoy our sale.

Thank you for your consideration.
